

# Academic Continuity Guidance

✔ Zoom is fully integrated with Myplace. To use Zoom for teaching, a Zoom activity should be added to Myplace by following the guidance below:

After consulting the guidance all staff support requests should be directed to [learning-technologies@strath.ac.uk](mailto:learning-technologies@strath.ac.uk)

## Automated Captioning of Video

[Microsoft Stream](#) has been rapidly deployed and will be available for staff to use from **9 September**. Video that staff have produced for teaching, and requires captioning and transcription, should be uploaded to this platform to be made available to students. Microsoft Stream produces captions and transcriptions automatically, although **captions /transcriptions should be reviewed and corrected, as necessary**.

- [1. Uploading Video To Microsoft Stream](#) — This article will guide you through the process of uploading your videos to MS Stream for delivery to students and for longer term storage.
- [2. Embedding Microsoft Stream Videos into Myplace](#) — This article shows how to embed video content that is hosted on Microsoft Stream in Myplace.

## Live Teaching (Using Zoom with Myplace)

To use Zoom for teaching, a Zoom activity should be added to Myplace by following the guidance below.

Guidance is now available on what can be recorded in a Zoom teaching session. [Guidelines for the use of Transcription and Captioning](#) are also available

- [1. Live Lectures \(One to many teaching broadcast\)](#) — This guide will help you to set up and conduct a 'Zoom Meeting' in [MyPlace](#) so your students can join the session.
- [2. One-to-one meetings / consultations](#) — You may, of course, choose to have one-to-one communication with students via email, phone, or Skype for Business. However, **Zoom Meetings** will allow you to have one-to-one meetings where you and your student will have the option to share screens to show each other slides, documents or diagrams.
